MANAGEMENT DISCUSSION AND ANALYSIS

1. INDUSTRY STRUCTURE AND DEVELOPMENTS:

The Company's business is in the niche space of Power Electronics and DC wound products. Although the market size of this industry is not as large as that of general Electrical Industry, it still has fairly good mix of small, medium, large and multinational players in the market. The Customers of the Company, mainly Indian Railways continue to ask for higher technology products although the plans and implementation has various barriers, being the Government Sector.

2. OPPORTUNITIES AND THREATS:

The Company has developed a new Transformer for the Railway Locomotive and with Dehradun Plant becoming fully operational for making Railways Transformers, the company expects better results at the end of the current financial year.

Due to one-time tenders for the full year by the Railways there is increased competition from the existing manufacturers and a few new entrants in this field which may affect the order booking.

3. OUTLOOK:

With the development of new products, improved sub assemblies and components and reduction in cost of inputs due to emphasis on getting better prices, payment terms from the vendors the outlook definitely looks much better.

4. RISKS AND CONCERNS:

Since Railway business is based on successfully bidding for the tender, the company may not get good orders both quantity and price wise if the competitors quote very low prices.

5. INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY:

The Company has adequate system of internal control to safeguard its assets against loss through unauthorized use and pilferage. A comprehensive system of internal controls employed by the Company ensures optimal use of the resources available.

Internal audit and checks are ongoing process within the Company.

Findings of the audit report with a comment from the respective department is reviewed by the Audit Committee.

6. DISCUSSION ON FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE:

The Company's performance has been affected due to the recession in the developed countries coupled with delays in allotment of funds, calling of tenders, finalization of orders etc. by the Railways resulting in hardly any orders from this main customer. Added to this no major expansion or new chemical plants and power plants were set up either due to paucity of funds, power shortage or lack of demand.

Combined effect of all these plus steep competition and rising cost of Raw Material severely affected the performance of the company.

In the current year there are signs of improvement in the Indian Economy which will have a positive influence in the working of the company.

7. MATERIAL DEVELOPMENTS IN HUMAN RESOURCES / INDUSTRIAL RELATIONS FRONT

The company recognizes that Human Resources are an extremely important and critical long term investment. The top management honors the dignity of each individual, irrespective of position and highly values the feelings of emotions of people.

The wage agreement with the Union expired on 31st December,2009. The company has received the Charter of Demands from the Union. It is hopeful of negotiating and signing the wage agreement with the Union in the next couple of months.
